

SCAPPA MONTHLY MEMBER HIGHLIGHT:

SADIE ROY

What is your favorite place to visit?

I'm originally from New Hampshire so I love to visit New England and see my family that still lives there. I especially like it up there in the fall. One place I really want to visit though is Greece!

What is something interesting about yourself?

I've been skydiving, and loved it so much that I hope to get certified one day and be able to jump solo.

What do you enjoy doing in your free time?

I prefer to spend a lot of my free time outside. I enjoy going to the beach or hiking. I also love to travel, and explore new places - even if it's just a short day trip! Live music is my favorite, so I go to a lot of concerts too!

What is your favorite food?

That's tough to choose just one. I'm really big on Italian food, basically anything with pasta. I also really like seafood.

What do you enjoy most about your job?

I chose to study Health Promotion in college because I hoped it'd lead me to a job that helps the community and has the ability to make a difference in someone's life, and prevention does just that. There are also so many opportunities in this field, which makes each day different.

How long have you worked in this field?

It will be two years in November.
